

# STARTS GUIDE FOR **Officials**

## STARTS:

### IMPORTANT INFORMATION:

The start command for events up to and including the 400m is “On Your Marks - Set” followed by the gun or other starting apparatus being activated when all athletes are steady in the set position.

The commands “On Your Marks - Set” are also used in the first leg of the 4x100m, 4x 200m and 4x400m Relays.

For races over 400m a Standing Start must be used and the command is “On your Marks” followed by the gun when all athletes are steady.

The Starter should be positioned on the inside of the track so that they have full visual control over all athletes during the start procedure.

**CROUCH START** (up to and including 400m):

“On your Marks”

“Set”

**STANDING START** (for races longer than 400m):

On your marks, walk up to the line. YOUR FEET MAY NOT MOVE AGAIN!

**FALSE START:**

Second bang or whistle indicates a false start.

Any athlete making a false start is disqualified. The athlete is shown a Red/Black diagonal card.

# RACE GUIDE FOR Officials

## THE RACE:

The place order of athletes at the finish of the race is decided upon by which athlete's torso crosses the finish line first. The torso is any part of their body not including the head, neck, arms, legs, hands or feet.

### IMPORTANT INFORMATION: JUDGES

- You must concentrate on the finish.
- Do not speak to each other.
- Don't let yourself be influenced by others
- Be objective and impartial

### HAND TIMING:

- Stopwatch must be reliable.
- It must be able to take split times.
- It must be held the same way for the start and finish.
- All times shall be rounded to the next full 10th of a second. e.g., 9.45 is rounded up and recorded as 9.5 secs. Look at the clock, what time should be recorded on the result sheet?

### DISTANCE RACES:

- For races of 800m and over, a lap counting device indicating the number of laps remaining is located by the finishing line.
- Lap scoring sheets should be used to keep the lap times of each athlete and are handed in at the end of the event for events over 1500m.
- A timekeeper should be appointed to call times for the lap scorers.
- Prior to the start of the races time keepers should be allocated the athletes that they will be timing.

The watch is stopped as soon as some part of the athlete's torso reached the plane of the finishing line

The watch is started on the 'smoke or flash' of the gun

- The lap board is changed when the first athlete enters the home straight.

### DISQUALIFICATION:

Runners or walkers who jostle or obstruct another competitor impeding their progress may be disqualified from the event

All track events up to and including 4x100m relays will be liable for disqualification if they run out of their lane.

In events where athletes run partly in lanes such as 800m, 4x200m and 4x400m relays, athletes must stay in their lane until the break line. From this point on, athletes may leave their lanes and run in lane one. If an athlete cuts in before the 800m break line they shall be disqualified. Disqualification is only done by the Track Referee.

# RELAY GUIDE FOR Officials

## THE RELAY:

### RELAY RACES:

In the takeover zone it's the position of the baton that matters as to whether it's in or out of the take-over zone, it's not the position of the body or limbs of either runner that counts.

Athlete must be inside change zone when they start to run.

- Baton must be changed inside of Zone (between yellow lines)
- It is the baton that counts

The baton may be changed anywhere in the 30m change zone. The outgoing runner may only start running from the zone

### IMPORTANT RULES:

- Runners must carry the baton by hand.
- Passing of the baton commences when it is first touched by the receiving athlete and is completed the moment it is in the hand of only the receiving athlete..
- If it's dropped, it must be picked up by the runner who dropped and it must be returned to the point where it was dropped before the runner continues in the race.
- It must not be thrown.
- A runner may leave their lane to pick the baton up, but shouldn't interfere with the other runners in doing so.
- After passing the baton a runner must remain in their lane and avoid impeding with the other teams.
- Impeding an opponent after passing the baton may get the team disqualified.

# HURDLES GUIDE FOR Officials

- Impede the progress of athletes in adjacent lanes.
